# RIJEKA CRNOJEVIĆA

Rijeka Crnojevića is a small village of long and rich history: established in medieval age as the place of first printing house in South Slavs. The tour starts nearby stone bridge built in 19<sup>th</sup> century by Montenegrin Duke Danilo, meandering through untouched nature down to the Lake.

You will have the opportunity to be surrounded by water lilies, forests and gentle slopes of hills that hide birds. Final point of the tour is Smokvica Beach, lovely spot for swimming and resting, before we turn kayaks back to the starting point.

# KARATUNA RIVER

Žabljak Crnojevića, once the capital of Montenegro, was the place of strategic importance and many times battlefield through Montenegrin rich history. It's not often you get to wander the ruins of a 15<sup>th</sup> century castle with no one but birds for company.

The village is connected with the Lake by Karatuna River, hidden in the field by dense willow forest.

You will paddle down the river, reaching beautiful fishing village of Dodoši. At the end, you will go up to the fort to hear stories and legends of this awesome historic place with the stunning view of the Lake.
