

# RIJEKA CRNOJEVIĆA & LAKE SKADAR BOATING

OBLUN

*Embark and sail  
into the magnificent sights  
that NP Lake Skadar offers you.*

If you love nature and beautiful landscapes, a trip to Lake Skadar is a great way to get to know the wild side of Montenegro.

Lake Skadar is one of the national parks and one of the main attractions of Montenegro. The largest lake on the Balkan Peninsula, divided between the two countries of Montenegro and Albania, captivates with its size and natural beauty.

The lake is filled at the expense of 6 rivers.  
On average, the total area of the lake is 475 km<sup>2</sup>.

Cruising the lake, you can see water lilies with huge white flowers which form a whole row that looks like a water carpet. A huge number of freshwater fish inhabit the Lake Skadar. The total number of bird species that live on this lake is about 220.

There are many monasteries and churches built on islands on the lake.
